### Launch of CIRANO PERSPECTIVES Journal

---

## PERSPECTIVES

CIRANO is proud to announce the launch of **PERSPECTIVES**, CIRANO's journal for the dissemination and valorization of research.

Written in a format that is accessible to a wider audience, the articles in PERSPECTIVES are intended to increase the visibility of CIRANO's work and the expertise of the CIRANO research community.

Through this dissemination tool, CIRANO seeks to reach the scientific community, the academic community and CIRANO's partners, including government policy makers, as well as, more broadly, the entire Quebec society.

As with all CIRANO publications, the articles are based on a rigorously documented analysis by CIRANO researchers and Fellows.

[Carole Vincent](#), Director of Knowledge Mobilization was appointed Chief Editor of the Journal.

## CIRANO NEWS

### Conference for our partners on behavioral and experimental economics

As part of the workshop on Behavioral and Experimental Economics for Innovative Policy-Making, CIRANO is organizing a special day for our partners. The objective is to introduce this methodology, its scope and how it allows for a better understanding of the determinants of certain decisions in contexts of risk and uncertainty. Several CIRANO researchers will present their most recent work in behavioural and experimental economics.

### A look back at our conference of the year: Meeting the challenges of supply chains

A day rich in exchanges organized by CIRANO in collaboration with Transport Canada. Five panels related to the challenges of supply chains followed one another, co-presented by Molivann Panot, CIRANO research professional and Nathalie de Marcellis-Warin, President and CEO of CIRANO. About a hundred people were present throughout the day, which led to very meaningful
